TRASH CANS

The Glasdon range of outdoor trash cans are designed in a choice of sizes, colors and styles, providing waste management solutions that will complement any campus landscape. Constructed from durable materials, these trash cans include low-maintenance plastic trash cans and robust metal trash containers, designed to resist the effects of adverse weather conditions, corrosion and vandalism.

WHAT DO I NEED TO KNOW ABOUT FUTURE-READY RECYCLING BINS?

Change is constant and so it's important that your trash cans and recycling bins are able to stand the test of time. To help you keep up with the moving times, we've answered all your questions about future-ready trash cans and recycling bins.

What are Future-Ready Recycling Bins?

Future-ready trash cans and recycling bins are designed to keep up with inevitable changes to the waste and recycling industry. This ensures that your waste management program remains flexible and up-to-date at all times.

What Are The Benefits Of Future-Ready Recycling Bins?

Thanks to transitional features such as interchangeable aperture and signage, these recycling bins can be adapted for the waste streams most needed in your recycling program.

Being able to modify your recycling bin to keep up with the changing waste and recycling legislations will ensure your waste diversion and recycling rates remain high, no matter what changes come into effect.

How Many Waste Streams Should My Future-Ready Trash Cans Have?

The number of waste streams your future-ready trash can needs depends on a variety of factors. But with future-ready recycling bins, choosing the right waste streams is a simple task.

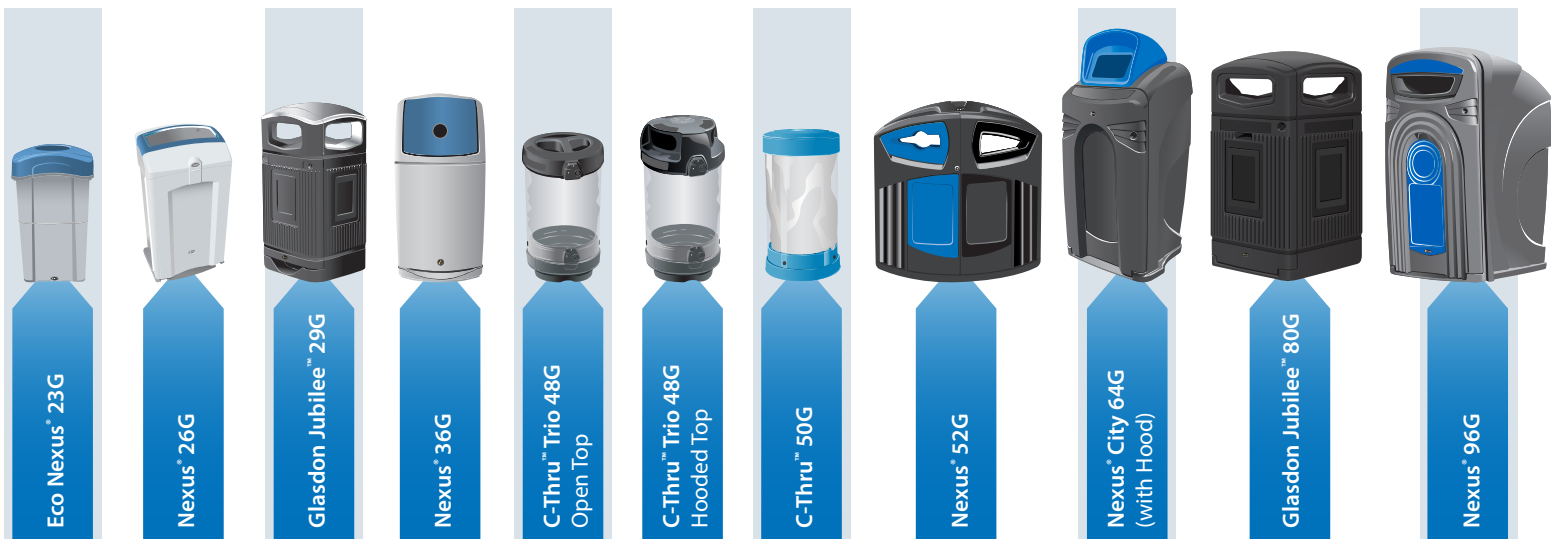

At Glasdon, we offer recycling bins with 1, 2 or 3 compartments to allow you to collect up to three separate waste streams in one container. This space-saving solution enables the collection of multiple waste streams without the need for multiple containers.

Can Future-Ready Recycling Containers Save Me Money?

In short – yes! Future ready recycling containers allow you to change streams whenever needed.

How are Glasdon Recycling Bins Future-Ready?

We want to make sure you get the best possible use out of your chosen Glasdon products and so we always strive to ensure that our recycling bins are Future-Ready and able to keep up with the changing times.

GUIDE TO PERSONALIZATION & BRANDING

Personalizing our products is a popular choice among our customers and adds that personal touch to your waste management and recycling program. It is also an effective way of communicating your waste reduction messages and enhancing your facility.

Our experienced sales team will advise you on the personalization options of your chosen product.

We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 1. Choose from a wide range of products and personalization options including:

Branding, corporate color schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Step 2. Selecting Standard Options

Many of our products offer standard decals and poster kits to choose from at the point of ordering. Simply select from the drop down menu the option you require on our website or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing decal colors and waste streams or to include an element of branding, or perhaps you would like to create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualization Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalization, of which you're able to review and make changes to if required.

This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. So when you are completely happy with the visual and have agreed any of the additional production costs, we will finalize and deliver your personalized order.

Helping you create impact, extend your brand and add value for your customers and visitors.

For a unique personalization service with a quality by design finish... talk to us today!
