

Products for Retail

Trash Cans

The Glasdon range of outdoor trash cans are designed in a choice of sizes, colors and styles, providing waste management solutions that will complement any retail environment. Helping to prevent animal access, these trash cans are constructed from durable materials including low-maintenance plastic trash cans and robust metal trash containers. They are also designed to resist the effects of adverse weather conditions, corrosion and vandalism.

Which Glasdon Jubilee™ Trash Can is the Perfect Fit for Your Environment?

When it comes to disposing of trash, we appreciate that different locations have different needs. Whether you require a larger capacity outdoor trash can for areas with high volumes of waste, or a more streamlined option for areas where space is a little more limited, Glasdon Jubilee™ Trash Cans provide an all-round solution.

Choose from the XL Glasdon Jubilee 80G, or the more compact Glasdon Jubilee 29G

If you're looking for a large capacity, polymer waste container, which has been specially designed for areas with high numbers of footfall traffic and trash hotspots, choose the Glasdon Jubilee 80G Trash Can.

If you're looking for a slightly more compact trash can which still provides a durable, easy-to-maintain exterior, alongside a traditional yet contemporary design, choose the Glasdon Jubilee 29G Trash Can.

The Glasdon Jubilee 29 Gallon Trash Can still offers all the impressive attributes of the 80G version, just on a more refined scale.

Cigarette Receptacles

Glasdon design and produce a range of cigarette units that can be situated in outdoor smoking areas, outside buildings, parks and sidewalks. Within our range of cigarette waste containers, there are units that can be wall mounted as well as free standing. Having a cigarette unit mounted to a wall takes up very little space making it perfect for narrow footed areas. Help to reduce the cost of cleaning up cigarette butt litter for your organization by installing a cigarette ash receptacle.

New Bag Waste Reduction Law heading to New York State on March 1

With so many people visiting grocery stores, shopping malls and tourist attractions across the state, it comes as no surprise that a huge amount of plastic bags are consumed. It's estimated that some 23 billion plastic bags are used across NYS each year, with many of those bags being used just once.

Plastic bags, which are ubiquitous in modern life, can take anywhere from 10 - 1,000 years to decompose. During this time, discarded plastic bags and plastic film pose significant risks to wildlife and the environment.

So how can you set up an effective plastic bag/film recycling program?

There are many, simple, steps retailers can take in order to create an efficient and effective plastic bag/film recycling program.

Our range of plastic bag and film recycling containers are here to help when it comes to implementing your recycling program.

Our range includes transparent recycling containers, available in both 48 gallon, and 50 gallon capacities, and are specially designed for the collection of plastic bags and film, whilst simultaneously allowing for the full inspection of the contents inside.

We also offer the option to customize our existing recycling containers into dedicated units for the collection of used plastic bags and film, speak to our team of experts today for more information, or see how we helped boost plastic bag and film recycling rates in York County.

Cup Recycling Bins

Increase disposable cup recycling rates with cup recycling bins and stations by Glasdon. We offer dedicated and multi-purpose paper and plastic cup recycling bins, designed to help you implement an effective and efficient cup recycling program.

Guide To Personalization & Branding

Personalizing our products is a popular choice among our customers and adds that personal touch to your waste management and recycling program. It is also an effective way of communicating your waste reduction messages and enhancing your facility.

Our experienced sales team will advise you on the personalization options of your chosen product.

We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 1. Choose from a wide range of products and personalization options including:

Branding, corporate color schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Step 2. Selecting Standard Options

Many of our products offer standard decals and poster kits to choose from at the point of ordering. Simply select from the drop down menu the option you require on our website or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing decal colors and waste streams or to include an element of branding, or perhaps you would like to create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualization Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalization, of which you're able to review and make changes to if required.

This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. So when you are completely happy with the visual and have agreed any of the additional production costs, we will finalize and deliver your personalized order.

Helping you create impact, extend your brand and add value for your customers and visitors.

For a unique personalization service with a quality by design finish... talk to us today!
