Products for Airside

Foreign object debris has the potential to cause significant damage in the aviation industry, as well as long delays and disruptions. By implementing appropriate on-site airport FOD Bins, the risks can be significantly minimized. Our range of FOD containers provide high visibility, durability, stability, and security.

FOD 7G

- A highly visible, and easy-to-use unit.
- Self-returning lid keeps waste securely inside.
- Choose between wall or post-mounting fixings as standard.

Dimensions

Capacity: 7 gallons

Height: 22"

Width: 15"

Depth: 12"

Weight: 8lbs

Colors: Red, Yellow

FOD 23G

- A secure solution for foreign object debris collection.
- Keyless 4-point locking system.
- Aperture flaps keep waste securely contained while allowing for easy access.

Dimensions

Capacity: 23 gallons

Height: 39"

Diameter: 21"

Weight: 33lbs (with steel liner)

Colors: Red, Yellow

FOD 64G

- Houses a 64 gallon bag holder system or a 36 gallon wheeled liner.
- Features a secure waste chute and self-closing lid, helping to keep potentially dangerous foreign object debris safely stored inside the unit.
- Can be personalized with company branding and/or logos.

Dimensions

Height: 54"

Width: 29"

Depth: 29"

Weight Bin: 55lbs

Liner Capacity: 64 gallons (36 gallons with wheeled container)

Guardian Life Ring Cabinets

- Keeps lifesaving equipment protected and readily available.
- Two sizes available to fit USCG-approved life rings (24"/30").

Glasdon Pledge to Reach

Net Zero
By 2035

Find out more...

As a Company with a commitment to continuously improving our environmental performance, we are pleased to announce that in 2021 we pledged to reach Net Zero by 2035 (with Scope 1 and 2* to be achieved by 2025).

*The Green House Gas Protocol Corporate Standard classifies a company's GHG emissions into three 'scopes'. Scope 1 emissions are direct emissions from owned or controlled sources. Scope 2 emissions are indirect emissions from the generation of purchased energy.
