

FOCUS ON
GAS STATIONS

TRASH CANS

The Glasdon range of outdoor trash cans are designed in a choice of sizes, colors and styles, providing waste management solutions that will complement any external location. Constructed from durable materials, these trash cans include low-maintenance plastic trash cans designed to resist the effects of adverse weather conditions, corrosion and vandalism.

INDOOR RECYCLING CONTAINERS

Our indoor recycling bins are available in a variety of styles, streams and capacities to make creating a recycling station as easy as possible. Many of our customers choose to personalize their products with their logo, colors and slogans. We can even customize your recycling bins to create bespoke waste streams to suit your recycling program.

Nexus® City 64G Recycling Bin

OUTDOOR RECYCLING CONTAINERS

We supply an extensive range of outdoor recycling containers, ideal for collecting various waste streams in exterior environments. The resilience and durability of our outdoor recycling bins means that they are able to withstand adverse weather conditions as well as being corrosion, rust and chip resistant.

Fido™ Pet Waste Station

PET WASTE STATIONS

Our selection of pet waste stations are popular for use on sidewalks and in bark parks. The clear decals help to encourage people to dispose of their dog poop correctly and the contemporary design of our dog waste units means that they complement existing landscapes easily.

CIGARETTE RECEPTACLES

Glasdon design and produce a range of cigarette units that can be situated in outdoor smoking areas, outside buildings and sidewalks. Within our range of cigarette waste containers, there are units that can be wall mounted as well as free standing. Having a cigarette unit mounted to a wall takes up very little space making it perfect for narrow footed areas. Help to reduce the cost of cleaning up cigarette butt litter for your organization by installing a cigarette ash receptacle.

GUIDE TO PERSONALIZATION & BRANDING

Personalizing our products is a popular choice among our customers and adds that personal touch to your waste management and recycling program. It is also an effective way of communicating your waste reduction messages and enhancing your facility.

Our experienced sales team will advise you on the personalization options of your chosen product.

We can also send you examples of some of our tried and tested visuals for a little inspiration.

Step 1. Choose from a wide range of products and personalization options including:

Branding, corporate color schemes, bespoke waste streams, campaign messaging and changeable poster kits.

Step 2. Selecting Standard Options

Many of our products offer standard decals and poster kits to choose from at the point of ordering. Simply select from the drop down menu the option you require on our website or contact our sales office for more information.

Step 3. Looking for Something Different?

If you would like to adapt a standard option by changing decal colors and waste streams or to include an element of branding, or perhaps you would like to create something completely unique, we can help. Our Sales team will be happy to learn more about your project and requirements. We will work with you to achieve the finish you require.

Step 4. Free Visualization Service

Our sales team will then liaise with our in-house graphics team to prepare a visual of the product with your chosen personalization, of which you're able to review and make changes to if required.

This is a free service offered to all Glasdon customers.

Step 5. Artwork Approval

We are committed to making sure the end result is exactly right for you. So when you are completely happy with the visual and have agreed any of the additional production costs, we will finalize and deliver your personalized order.

Helping you create impact, extend your brand and add value for your customers and visitors.
